

CONGRATULATIONS

to the 8 selected projects
for the first cycle of
CCIFV's Accelerator Program 2022!

THE PROJECTS

Domeo is the one-stop source of luxury Glamping and mobile spaces from equipment to operations turn-key solutions.

- Supply Glamping equipment and dedicated products
- Consulting experts in development and operations Glamping Resorts and Ecolodges
- Developer of Glamping resorts, themed Eco-lodges, Glamping resorts

Dr.Shaving helps reduce and prevent dermatitis, folliculitis, skincare, and beard care. It is an all-in-one product that helps to prevent skin inflammation and hair follicles, a 3-in-1 waterless shaving wax with 100% organic ingredients. We bring to you a healthy, convenient and eco-friendly solution.

LivWell Asia, a blockchain-based Gamified Insurtech & health engagement application, provides low-cost bite-size Health and Term Insurance in Vietnam and India aimed towards Gen-Z. Active in Vietnam in partnership with California Fitness, Allianz Partner, and PVI with over 120K active members and 20K Insurance customers since April 2021. Raised over USD 500K and now looking at raising USD 1.5M as growth capital for Vietnam. Aspiration to become D2C Activity-based Health and Term Life Insure in SE Asia.

Luqei - We work in language analysis.

We prepare our students to pass the French language exams. A teacher follows each student and provides personalized and direct support from the beginning of the training until the day of the exam. To save time in monitoring and to deal with a larger number of students, we are developing a text analyzer capable of detecting errors and explaining to the student how to master the error he has made.

THE PROJECTS

Slowfashionistas is a concept store enabling the community (middle and upper class) to glamorize its unused clothes and fashion accessories. This comfortable and welcoming store/café offers a range of upcycling solutions.

First, through an innovative physical platform of cloth swapping, enabling members to access a large range of quality items, replacing their drop-ins. Then, a simplified access to mending and upgrading services at the sewing and design workshop. A preloved corner for a select choice is also available for those who simply want to sell and buy.

The ambition is to create an alternative to fast fashion, providing guilt free pleasure of responsible shopping. A network of concept stores across the country will welcome members & visitors for their clothing drop in, shopping, fitting and upcycling, while enjoying eco-friendly refreshments and snacks.

STComAsia is a Vietnamese limited liability Company (with foreign invested capital) active in Marcom industry in Vietnam and Cambodia since 1995.

We are specialized in corporate (internal/external) visual communications (strategy and applications in design / digital / film / PR & Media) and event productions (corporate and public).

The first online Lifestyle Marketplace in Vietnam & SEA, where Luxury, Art, Fashion & Designers propose their products & our Curators make them shine...

WebScripter is a subscription based CMS (content management system) platform that improves production for faster website development and integrates human intelligence to give top service for creativity and strategy. This mix allows us to meet demanding needs for economical, yet bespoke solutions for digital marketing and website needs.

The perfect blend of automation and human intelligence. Your online web agency.

We target Vietnamese SMEs in the B2B sector to start, but will also provide ecommerce solutions for B2C companies.

We have built a prototype but require one more year to create the MVP and launch the product. We aim to create a new business in Vietnam and are seeking funds to hire a dedicated development team.

Do you wish to meet the ambitious Entrepreneurs behind these projects?

Join CCIFV's Accelerator Program as an Investor and:
