# ABOUT THE PROJECT :

The Earth is in the midst of the Sixth Mass Extinction, with the loss of about 30-90% of Earth's species. Afforestation to restore lands and improve the forest quality is one of the most effective and urgent solution

- **A 1 ha Forest - 500 trees in Dong Nai world biosphere reserve\***
- In collaboration with Gaia Nature Conservation NGO, that operates afforestation projects in the National Park
- **A Day Trip to Dong Nai on 9th of August 2023 to plant the 500 trees**  
An exclusive opportunity to do teambuilding with a green action

*\*The reserve is labelled world biosphere reserve by UNESCO since 2001.  
It is controlled by state agencies with the function of managing, protecting forests and biodiversity resources.*
