

PRINCIPLE AND GENERAL CONDITIONS - ENTREPRENEURS -

Created by the French Chamber of Commerce and Industry (CCIFV), CCIFV's Accelerator Program is an engaging program that aims to boost ambitious and creative entrepreneurs. CCIFV's Accelerator Program creates a community of shared knowledge and opportunities between entrepreneurs having business projects linked with Vietnam selected for this program ("Entrepreneurs"), and experienced investors and professionals having field expertise and experience in their professional activity sector and the Vietnamese business environment ("Jurors") in the view of introducing Entrepreneurs to potential financial partners ("Investors"). We facilitate these meetings and matching in order to initiate successful business relationships, to speed up ambitious and creative projects to a success story, and to expand together the dynamic ecosystem of Vietnam.

- However, CCIFV's Accelerator Program's process involves a full-time resources person, facilities, operating expenses. Furthermore, the involvement of Investors at the Investor Session requires a minimum of cost to ensure an excellent perception.
